Mr. Brodbeck did a phenomenal job on my family project. He delivered a very detailed report on his findings, along with a list of his successful as well as unsuccessful searches. His extensive knowledge of the Cincinnati area allowed him to consider data bases I was not even aware of, and make recommendations for future searches all in easily understandable terms. Definitely worth the investment!

Thank you - I am still no further than where I was, but will continue looking. I guess the help I really need is for someone familiar with all of this to actually research and find something since I have already spent many many hours looking for John and Elizabeth. But i guess there is no one who does that, so thanks for the information anyway.

Bob Brodbeck is an outstanding genealogist. He is very professional in dealing with clients. His knowledge of local resources in the southern Ohio-northern Kentucky region was invaluable in locating death records for both of my paternal grandparents. The project was carried out in a timely and thorough manner. Bob is a true professional and I recommend him highly to those seeking assistance in any genealogy project. Charles J. Austin, Ph.D.,

Bob was a joy to work with. His experience and expertise in the field as well as records in the local area yielded results beyond what I ever thought possible. He was successful at locating records that had eluded me for 30 years of research. Bob was willing to put in the time to present a detailed research plan before being chosen for the transaction and communicated any deviations from that plan for approval before proceeding. He was great at communicating progress at every stage of his research. I cannot give a high enough recommendation for this expert!
